

“KECAK 5555”

Kecak “5555” is an Instrumental Kecak Composition that is performed as a Concert. An instrumental format is adopted in order to explore the Kecak elements such as voice tone and pure Kecak “Kilitan” form. Kecak 5555 is taking its mother source from the affluence work of Kecak Ulapan Bлахkihuh from Badung Regency. At the introduction, the traditional form of Kecak is rearranged into a new formulation. Besides arranging the chorus “Cak” voice element, this Kecak composition is also inserting the element of “Body Cak” by maximizing the clapping sound between hands, clapping to the chest, and tights of the performers. Kecak 5555 is made to give a themed space for Kecak to be able to release itself from the context of a dance theater accompaniment form that is commonly performed. Here in this concert, Kecak 5555 plays a central role. It stands on its own as a beautiful sound composition.

The performer of Kecak 5555 is a union of high school student’s representatives from throughout Badung Regency. The uniqueness of this Kecak 5555 is not only that it is performed by male students, but by female students. The harmonization of male and female vocal tone has brought up its own unique colour. The female performers are not simply taking the “Nada Tembang” (the singing part), but also equally taking part in the “Cak” with their male partners.
